Subject: SAOGA and SAORC ? AA1000531 ? Submission

Categories: Submission

Dear Sir/Madam

I have farmed oysters on Yorke Peninsula for the last 15 years and fully support the submission for exemption.

The oyster industry is relatively young and needs investment in Research and Development. The levy charged on spat sales collected by the hatcheries is an efficient and effective way of sharing the burden of R&D across the whole of industry and minimising free-riders.

Many thanks
