Subject: FW: FW: Toowoomba Regional Council & Western Downs Regional Council application to ACCC for authorisation - AA1000550 [SEC=OFFICIAL] [ACCC-ACCCANDAER.FID2748741]

Good afternoon,

Following the advice below on Friday, the following comment has been provided by the Policy team, Office of Resource Recovery, Queensland Department of Environment and Science:

Supportive of a regional process – this aligns with the work we are currently doing with these councils and the broader region to develop a regional waste management and infrastructure plan.
No issue with the application for an ACCC authorisation.

Apologies for the late response.
