Dear Mr Whitby,

We refer to the application by the Australian Directors' Guild for authorisation to collectively negotiate on behalf of its members with Screen Producers Australia (SPA).

SPA supports the application and considers there is public benefit in the proposed arrangement. We also note that the granting of the ADG's application serves to give effect to SPA's authorisation AA1000535.

As a small matter of clarification, the collective agreement under negotiation does not apply to Serials.

Kind regards,

ZOE ANGUS
