To whom it may concern,

We write in reference to the MOCN agreement between TPG and Telstra. As a business dealer for TPG, we see significant value in this agreement and feel it will enhance customer experience and create increased competition in the telecommunication industry.

With the improvement in coverage in rural and regional areas we see huge benefit to our customers who currently have little to no choice on who they sign with.

The benefit will also extend to many of our business customers that have an interest or travel through areas with poor coverage.

Kind Regards,
