Dear Mr Channing

Thank you for providing the Australian Dental Association (ADA) with a further opportunity to comment on the proposal to grant authorisation to the Honeysuckle Health and nib (the Applicants) application for Authorisation AA1000542.

While we are pleased that the ACCC is only proposing to grant authorisation for five years rather than the requested ten years to the Applicants, however, the ADA continues to object to the application for the reasons previously stated.

Do not hesitate to get in touch with our CEO, Mr Damian Mitsch if you would like to discuss this matter further on  or by email to 

Yours sincerely

Dr R. Mark Hutton  
Federal President
