

Submission by David Laughton-29 November 2024

As a hangar and aircraft owner I wish to vigorously support the collective bargaining application by the Toowoomba City Community Aerodrome Inc. The major incentive for this is that for several years now the council has refused to act in good faith, or to even engage with tenants and stakeholders when approached individually. As a united group I am hopeful that these issues can be addressed and dealt with in a commercially responsible manner to the benefit of the wider community, as well as those whose employment, businesses and capital investment are being seriously jeopardised, in apparent conflict with the Deed under which the airport was transferred to the Council. Yours Sincerely Dave Laughton
